

Geotech
DRILLING

Portable and powerful, to go just about anywhere.

► **2009 Geoprobe® 80 Series Direct Push Machine**

- 84 in. (2134 mm) probe cylinder stroke allows use of 60 in. (1524 mm) probe rods
- 40 ton pulling capacity for today's larger sampling tools and deeper depths
- Equipped with the five function CB8 Combo Head
- Built-in rotary spindle for concrete drilling, augering, and anchoring
- Equipped with a hydraulic winch for handling augers and tripping dual tube sampling tools
- Hydraulic movement in all three axes allows easy probe alignment with tool string
- Five Auxiliary hydraulic ports provide power for remote equipment
- Sideshift that allows centerline access of toolstring
- Hydraulic Rod & Casing pull feature is compatible with 4.25 in., 3.25 in., and 2.25 in. Geoprobe® tooling.
- Integral Electronic Diagnostic System works to safeguard the unit and help the operator quickly diagnose problems in the field.
- Adjustable Operator Control Panel is mounted on a swing arm enabling quick and easy movement to the optimum position for operation.
