

2008 Fraste Mito 40

DR 225 - 2008 Fraste Mito

Versatile, Aggressive, Adaptable

Geotech's Fraste Mito 40 is an extremely versatile track mounted rig. With a unique mast articulation system the Mito 40 has the ability to adjust its mast in a number of different ways, including horizontally and vertically, allowing it to drill in the strictest of areas. The Fraste Mito 40 is capable of drilling in many forms including: air rotary, coring, and mud rotary drilling. With the ability to outfit this rig with a SPT hammer, the Fraste Mito can satisfy all your geotechnical construction and environmental needs.

Depth Capabilities:

Air Rotary (cased): 45m (150')	HQ: 125m (410')
Air Rotary (open hole): 165m (550')	NQ: 150m (490')
Mud Rotary: 105m (350')	BQ: 350m (1140')

Dimensions:

Width: 2.4m (8') | **Length:** 3.6m (12') | **Height:** 4.6m (15')

Rig Features:

- Max Stroke: 2.13m (7')
- Maximum Clamping Diameter: 178 mm
- Triplex and moyno pumps
- Swing arm adjustable control panel for tight access drilling
- Double clamp breakout system, reducing the need for pipe wrench usage
- Power: 100 hp
- Mast articulation system
- SPT Hammer
