

# 1994 M5T

- DR 201 - 1994 M5T

## *Versatile, Aggressive, Adaptable*

The M5T is an extremely versatile drill rig and is one of Geotech's finest rigs in the environmental sector. Equipped with a rubber track system, the M5T is capable of drilling in areas where access acquires a high degree of difficulty. Although compact, the M5T continues to be at the top of its class, with a powerful torque rating of 5200 lbf-ft. Built for expertise in reclamations and environmental leases, the M5T is highly proficient in hollow and solid stem operations.

### **Depth Capabilities:**

**Hollow Stem Auger:** 45m (150')

**Solid Stem Auger:** 60m (200')

**Air Rotary (open hole):** 90m (300')

### **Dimensions:**

**Width:** 1.8m (6') | **Length:** 3.7m (12') | **Height:** 3.4m (11'3)

### **Rig Features:**

- Max stroke: 1.8m (6')
- Main winch pull: 5000lbs
- Grout pump
- 2 speed high-low torque
- Remote control maneuverability
- Max torque: 5200 lbf-ft
- Power: 100 hp
- Rubber tracks
- Calibrated automatic hammer
