

2009 Mobile B-54

DR 234 - 2009 Mobile B-54

Dynamic and Mobile

Geotech's B-54 is mounted on a 2009 International chassis for easy and swift transportation. With the unique 3 winch system the B-54 has the ability to hang 23 meters of drill stem at a time, greatly increasing sampling speed. Outfitted with a Fraste breakout clamp system this rig allows for quick and safe drill stem tripping. The B-54 is proficient in air rotary, mud rotary and coring. Equipped with an onboard air compressor this truck mounted drill rig has everything needed to complete the job.

Depth Capacities:

Air Rotary (cased): 135m (440')

Air Rotary (open hole): 1260m (4130')

PQ: 240m (800')

NQ: 365m (1200')

HQ: 605m (2000')

BQ: 750m (2500')

Dimensions:

Width: 2.43m (8') | **Length:** 9.14m (30') | **Height (mast raised):** 9.14m (30')

Rig Features:

- Rotary Head Stroke: 3.65m (12')
- On board compressor (200/300)
- 3 winch system
- Outrigger system for additional stability
- Double clamp breakout system, reducing the need for pipe wrench usage
- Power: 262 hp
- Dump stroke- 18"
- Elevated work platform
