

ZINEX A5

Compact, Versatile, and Powerful

Geotech features a collection of Zinex A5 drills in our helicopter portable fleet, which are capable of completing deep hole drilling (up to 1400 meters NQ) while remaining helicopter portable. The Zinex A5's robust design can be used in the most remote environments with reliability and durability to complete drilling in the most challenging conditions.

Depth Capabilities:

HQ: 850m (2,800')

NQ: 1325m (4,350')

BQ: 1700m (5,600')

Rig Features:

- Stroke: 1.83m (6')
- Heaviest component - 1680 lbs
- Main hoist winch
- Synchronized Rod in/Rod out function
- PQ foot clamp
- No plastic components on drill
- Power: 176hp
- Levelwind wireline winch
- Boyles B20 chuck system
- 435 DTH bean pump
- Bolt together drill shack designed solely for A5
